

# Aktuelt nyt om solcellestandarde

T.I., mandag d. 30-11-2015

Jan Roed  
chefingeniør

# Overordnet indhold

- Strukturen i IEC TC 82 og CENELEC TC 82
- TC 82/WG 6
- Arbejdsprogram og færdige standarder for IEC TC 82
- Arbejdsprogram og færdige standarder for CENELEC TC 82
- Litium batterier
- BIPV
- Installationsstandarder

# Solcellestandardisering, Generelt

International Electrotechnical Commission

Her er arbejdet organiseret i tekniske komitéer (TC) efter emne.

**TC 82** Solar photovoltaic energy systems

TC 21 Secondary cells and batteries

TC 64 Electrical installations and protection against electric shock

EUROPEAN COMMITTEE  
FOR ELECTROTECHNICAL STANDARDIZATION

European Committee for Electrotechnical Standardisation

**TC 82** Solar photovoltaic energy systems

TC 21X Secondary cells and batteries

TC 64 Electrical installations and protection against electric shock

# TC 82 organisation

47 medlemslande, 2 associerede medlemslande

## Working Groups

- WG 1      Glossary
- WG 2      Modules, non-concentrating
- WG 3      Systems
- WG 6      Balance-of-system components
- WG 7      Concentrator modules
- WG 8      Photovoltaic (PV) cells

## Project Teams

- PT 62994-1      Environmental Health and Safety (EH&S) Risk Assessment for the sustainability of PV module manufacturing - Part 1. General principles and definition of terms

## Joint Working Groups

- JWG 1      JCG TC 82/TC 88/TC 21/SC 21A
- JWG 82      TC21/TC82 - Secondary cells and batteries for Renewable Energy Storage Managed by TC 21
- JWG 32      Electrical safety of PV system installations Managed by TC 64

## TC 82 organisation

Alle CENELEC medlemslande er formelt medlemmer

### **Working Groups**

WG 01 Wafers, cells and modules

WG 02 BOS components and systems

# IEC TC82 Working Group 6

## Balance of System Components

**Scope:** Develop BOS standards in the general areas of performance, safety, environmental durability (reliability), quality assurance and quality assessment criteria.

### Ongoing projects

- IEC 63027 Ed. 1.0 (NP-CD) DC arc detection and interruption in photovoltaic power systems
- IEC 62920 Ed. 1.0 (CD) EMC requirements and test methods for grid connected power converters applying to photovoltaic power generating systems
- IEC 62109-3 Ed. 1.0 (2CD) Safety of power converters for use in photovoltaic power systems - Part 3: Particular requirements for electronic devices in combination with photovoltaic elements
- IEC 62093 Ed. 2.0 (RR/AMW-CD) Balance-of-system components for photovoltaic systems - Design qualification natural environment
- IEC 62894 Ed. 1.0 (Amd) Data sheet and name plate for photovoltaic inverters
- IEC 61683: Ed. 2.0 (PWI) Photovoltaic systems - Power conditioners - Procedure for measuring efficiency
- IEC 62891 Ed. 1.0 (ADIS) Overall efficiency of grid connected photovoltaic inverters

# IEC TC82 Working Group 6 Programme Overview – Existing and planned

## Inverters

### Safety

- General and testing
- Earth-fault protection

### Grid Related

- Anti-Islanding
- LVRT Testing

### Performance

- Ratings
- Efficiency

### Qualification & Reliability

### Emissions

## Charge Controllers

### Safety (coming)

### Performance

### Qualification

## Other

### Arc-Fault detection

### Through Liaisons

### Combiner boxes

### DC (PV) Switches

### DC circuit breakers

### Surge protection devices

### Cables

### Connector

# IEC TC 82 arbejdsprogram (1/9)

# TC 21 Secondary cells and batteries Solcellebatterier

## **Subcommittees**

SC 21A Secondary cells and batteries containing alkaline or other non-acid electrolytes

## **Working Groups**

WG 8 Safety requirements for secondary batteries and battery installations

WG 10 Safety standard on lithium batteries and battery installations used for stationary applications

## **Joint Working Groups**

JWG 82 TC21/TC82 - Secondary cells and batteries for Renewable Energy Storage linked to TC 82

# Litiumbatterier - standarder

IEC 62485-5 Ed. 1.0 **Vedtaget nyt forslag – 1. draft 2017 – Std 2018**  
Safety requirements for secondary batteries and battery installations  
- Part - 5 : Lithium-ion batteries for stationary applications

IEC 62619 Ed. 1.0 **næsten færdig standard 2016**  
Secondary cells and batteries containing alkaline or other non-acid  
electrolytes - Safety requirements for large format secondary lithium  
cells and batteries for use in industrial applications

IEC 62620:2014 Edition 1.0 (2014-11-25)  
Secondary cells and batteries containing alkaline or other non-acid  
electrolytes - Secondary lithium cells and batteries for use in  
industrial applications

# Stationære litumbatterier

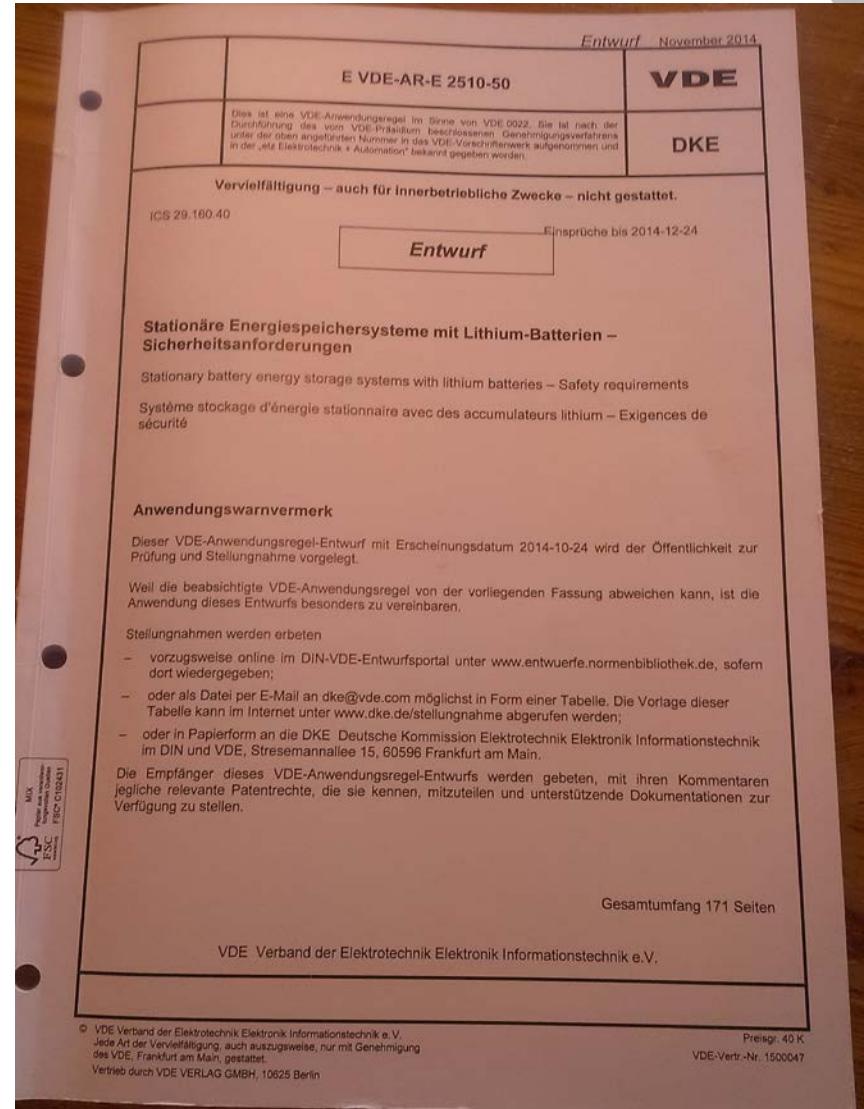

## VDE-AR-E 2510-50

Anwendungsregel: 2014-11

\* German Language Version \*

Stationary battery energy storage systems with lithium batteries  
Safety requirements

Specification of general safety requirements for stationary energy storage systems with lithium batteries. Also provides the basis for the certification of components of a complete system, e.g. single batteries.

# Installationsbestemmelserne for litumbatterier

Installationen dækkes (formodentlig) af den kommende IEC  
60364-7-712

# BIPV

- EN 50583-1 Photovoltaics in buildings - Part 1: BIPV modules
- EN 50583-2 Photovoltaics in buildings - Part 2: BIPV systems

Begge standarder er teknisk færdige, men er ikke udgivet endnu.  
Forventes udgivet promo 2016.

Opbygningen er sket med fokus på CPR, dvs med mange  
skemaer med referencer til andre standarder.

Opbygningen afspejler den store forskel der er mellem dem der  
indeholder glas og dem der ikke gør.

# PV installationsbestemmelser

# Installationsbestemmelser for PV

I dag gælder Stærkstrømsbekendtgørelsens Afsnit 6 – i særdeleshed kapitel 712 Solcellesystemer

Bestemmelserne er en oversættelse af HD 60364-7-712:2005 (=IEC 60364-7-712) Low-voltage electrical installations - Part 7-712: Requirements for special installations or locations - Photovoltaic (PV) systems

Der er vedtaget en **ny HD 60364-7-712:2015**, der stadig er ved at blive bearbejdet til trykning. I Danmark får den gyldighed fra **1. juli 2016**, hvor en ny bekendtgørelse om elektriske installationer træder i kraft. Der vil dog være en overgangsordning frem til **1. juli 2018** hvor de nuværende bestemmelser kan bruges.

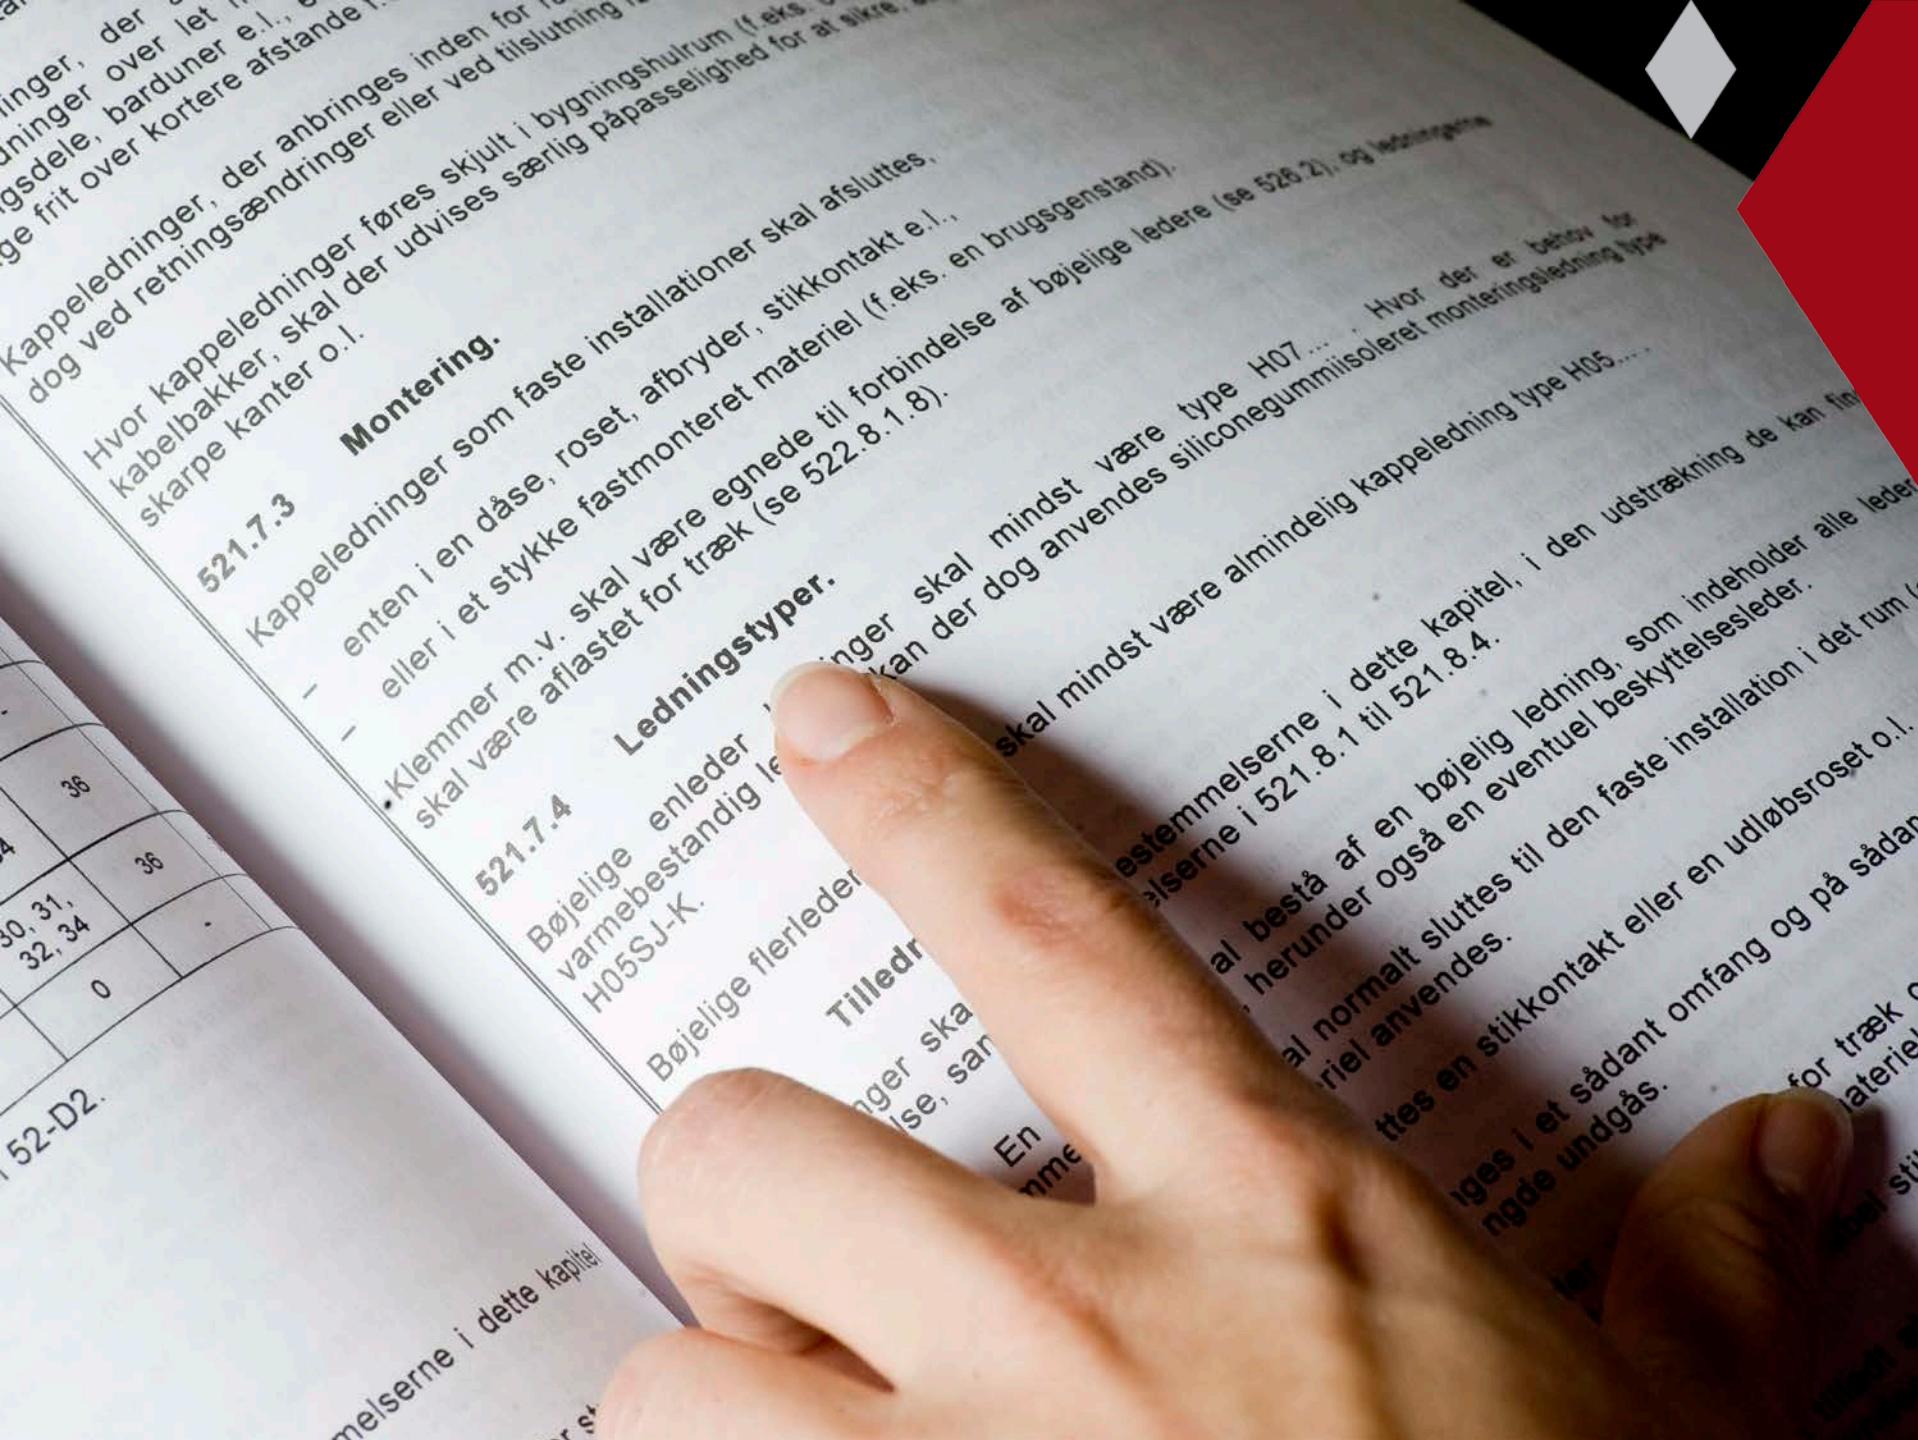

Fremadrettet skal man bruge standarder direkte. DS vil oversætte installationsstandarderne

# Ændring af de fremtidige installations-bestemmelser for PV

Selvom den nye **HD 60364-7-712:2015** ikke har forladt trykken, så har man nedsat en arbejdsgruppe, der skal lave den om!

IEC er kraftigt forsinket med den nye IEC 60364-7-712, så den nye europæiske standard baserer sig på et tidligt udkast fra IEC som man har arbejdet videre på.

Nu er man så i den situation at IEC og CENELEC standarderne reelt er forskellige. Det kan man ikke leve med fordi stort set alle produktstandarderne kommer fra IEC og bliver her udviklet så de passer med IEC 60364-7-712.

### 521.7.3

#### **Montering.**

- Kappedeledninger som faste installationer skal afsluttes, enten i en dåse, roset, afbryder, stikkontakt e.l., eller i et stykke fastmonteret materiel (f.eks. en brugsgenstand).
- Klemmer m.v. skal være egnede til forbindelse af bøjelige ledere (se 522.8.1.8).
